

Catalytic Sustainability in the Future

13 February 2015

Ellen Wilkinson Building, C5.1, University of Manchester

- 10:15** **Registration & Coffee**
- 11:00** **Welcome and Introduction**
Prof Steve Marsden (University of Leeds, Dial-a-Molecule Co-I)
- 11:15** **Amino Boronates – Making Them and Using Them**
Prof Andrew Whiting (Durham University)
- 11:45** **Catalysis with Low Valent *f*-Elements: A Theoretical Journey**
Prof Laurent Maron (University of Toulouse)
- 12:35** **Lunch**
- 13:30** **Stepping up to the Copper Plate – Base Metals do Valuable Catalysis Too!**
Dr Jonathan Moseley (CatSci Ltd)
- 14:00** **X-Ray Absorption Spectroscopy in Synthetic Catalysis**
Dr Bao Nguyen (University of Leeds)
- 14:30** **Catalysis in Flow**
Dr K. K. (Mimi) Hii (Imperial College London)
- 15:00** **Challenges of Sustainable Catalysis in the Pharmaceutical Industry**
Dr Katherine Wheelhouse (GSK)
- 15:30** **Refreshment Break**
- 16:00** **Flash Poster Presentations**
- 16:40** **Towards Sustainable Catalysts for Sustainable Polymers**
Prof Matthew Davidson (University of Bath)
- 17:10** **Sm(II) Organic Transformations**
Prof David Procter (University of Manchester)
- 17:40** **Poster Session and Wine Reception**
