

WOMEN'S HELL

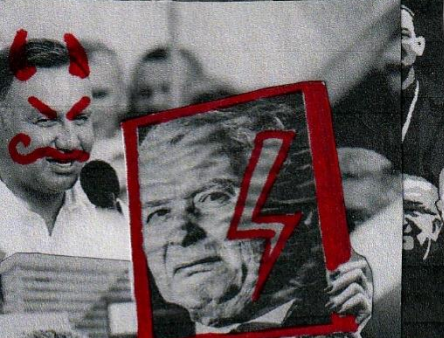

What's happening in **Poland?**

Abortion is now allowed only in cases of rape or incest or when the pregnancy threatens the life of the mother.

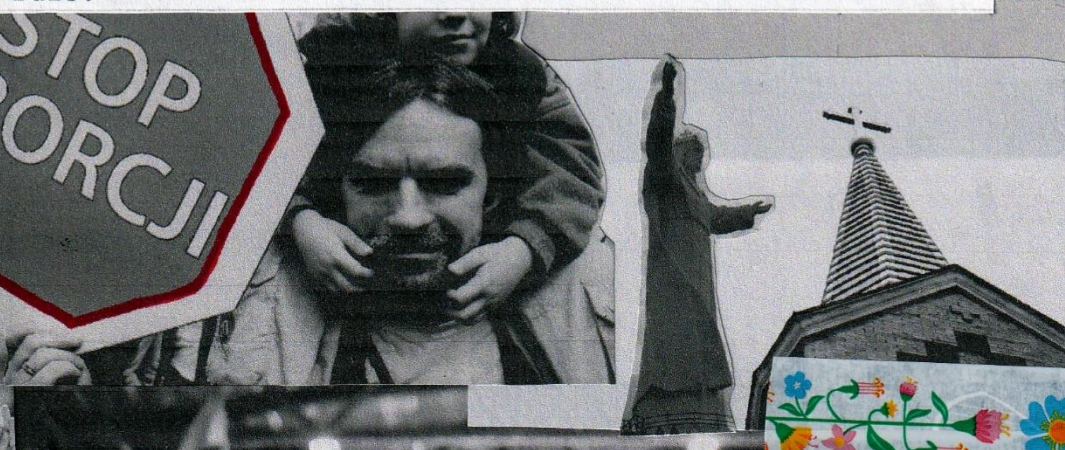

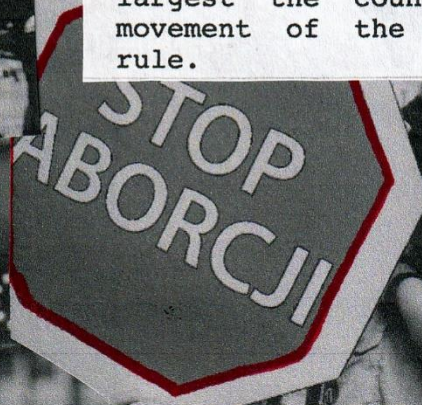

Most legal abortions in Poland are performed on the grounds of foetal defects, so this final and binding ruling, effectively bans pregnancy terminations.

Poland's conservative government, which has strong ties to the country's powerful Catholic Church, supports the ruling.

This sparked weeks of mass protests, some of the largest the country had seen since the Solidarity movement of the 1980s, which helped end Communist rule.

Religious hypocrisy.

Pro-lifers often argue on the basis of Christian faith. However...

The Old Testament refers to abortion in terms of loss of property, not sanctity of life. The New Testament does not explicitly mention abortion.

In the Early Roman Catholic Church, abortion was permitted (in the first 40 days for male, and the first 80-90 days for female fetuses). Not until 1588 was all abortion declared to be murder.

Every year an estimated 20,000 women die from unsafe abortions.

Pregnancy complications may be so severe that abortion is the only measure to preserve a woman's health or save her life.

If women and girls cannot choose when they have children, they are often unable to access an education or have a career, and can struggle to support large families.
