1. HOUSEHOLD COMPOSITION AND CHILDREN

1.1

For each person living in the household (apart from the woman herself & the study child) complete one line. A household is defined as a group of people who share a living room or eat together for at least one meal a day. For all children (see younger generation list) record date of birth (or age if dob is not available). For all adults, record whether they currently smoke at least once a day. 0=No, 1=Yes

Days per week is for anyone who is only in the household part-time. Record the average number of days per week that person lives in the household.
